

What you WILL learn

- Something about web development
- How to talk smart when in a room of web developers
- How HTML pages are written
- What CSS is and why it makes things look good
- How to get your website on the internet for free

What you will NOT learn

- HTML, CSS, or JS
- How to code
- Everything there is to know about web development
- Why the ghost of the ETS doesn't like to play the piano anymore
